

When?

When coke was a drink,
When blow was the wind,
And base was something you ran to,
Not smoked.

When a needle was used for pulling thread,
A stem was connected to a rose,
And powder was put on a baby's bottom,
Not sucked up your nose.

When grass was the stuff you cut with a mower,
Weed was just something that grew with the grass,
And rocks were found in piles,
Not in little glass vials.

When speed was just driving a little too fast,
Crack was a fat mans pants hanging low,
And to score meant getting a run,
Not going on one.

When a habit was something a nun would wear,
To get high simply meant climbing a tree,
And to get stoned,
Wasn't that from the Bible?
